

My recommendations to address the Problem my family and I have  
Been Experiencing concerning Obscene phone via Sprint-online relay  
is simple but apparently to complex for their system I guess.  
Here Goes: When someone uses the relay system tell the operator  
when a relay comes in at 12:30 a.m. and the caller is typing "I  
am going to \_\_\_\_\_ you!!!!!! and your dog is going to  
\_\_\_\_\_you!!!! and I am going to \_\_\_\_\_your  
\_\_\_\_\_ car!!1 that is probably a call you should not allow  
to be relayed!!!! A little common sense could be used!!!! MAYbe  
if people like us go after the business allowing this to go on  
maybe then tougher regulations will be implemented!!!! Thank you!!
